

Title Shiyak

Scene \_\_\_\_\_

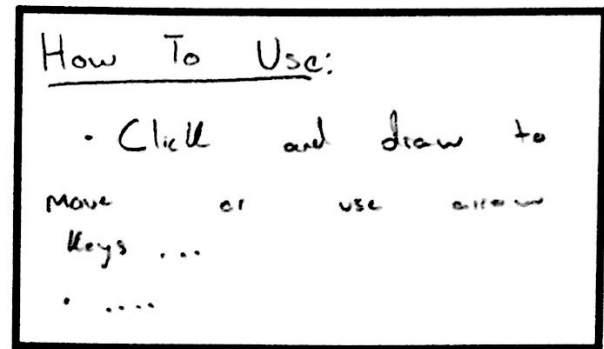

Page \_\_\_\_\_

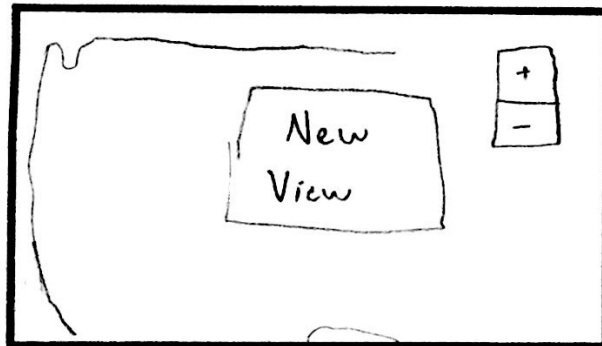

The program target  
beginner flight - bookers

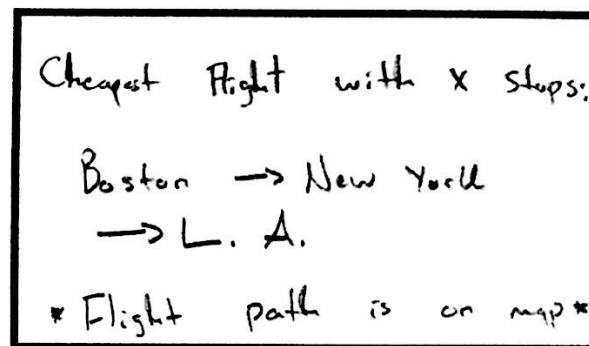

User is brought right to  
the main interaction screen

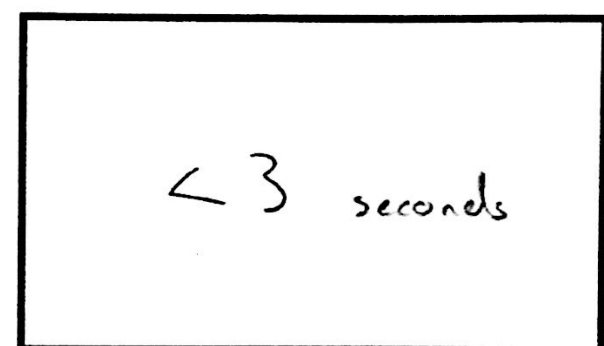

When the user click  
"help"

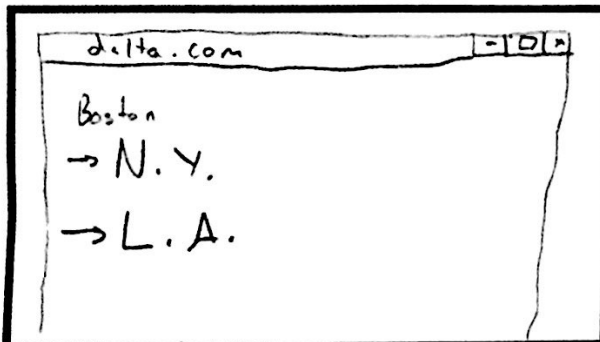

Using the zoom buttons  
will zoom the user in  
on the center of the screen

The cheapest flight will  
be displayed as text and  
on the map

The user should not have  
to sit for long. Results should  
load fast

User should take info  
from program and book  
their flight.
